PARTS

Propell works with many OEMs and manufacturers to stock parts in-house, giving you quick delivery times and keeping your units and crew running at their best.

Propell takes pride in being your total solution for oilfield equipment, and manufacturing is just the beginning. The Propell warehouse stays stocked with everything from integral components to a wide variety of consumables and shop supplies. Our fleet of delivery trucks ships out in minutes, not days, keeping your units and crew running at their best.

FIELD SERVICE

We recognize that downtime affects your bottom line. That's why our team puts urgency into getting your equipment back up and running.

Equipment can give you difficulties when and where you least expect it, and getting back up and running it imperative. Propell can minimize downtime by bringing our Field Service technicians to you, wherever you need it. Our service technicians are on-call throughout North America and are equipped to troubleshoot and repair any brand of equipment or dispatched virtually anywhere in the world.
